Sorting Beads Competition for the Students of Nursery

Dear Parents,

Sorting Competition is going to help us test the student's eye-hand coordination, colour recognition and fine motor skills. The competition is scheduled for **Tuesday, 19 May 2026**.

For the competition each child will be given 12 beads (of three different colours). The student's task is to sort them according to the colours, and place them in three different bowls.

The student will be judged based on how fast they can finish accomplishing the task. Ample amount of practice for the same will be given in the school.

Regards

M. Arshad Ali Khan
Principal In-Charge
