

A Report On Innovative Practices

World is changing at an unprecedented pace. Hence the dire need of the hour is to strengthen the education system by creative and innovative practices to achieve incredible results.

All the sections of our school always strive to scale new heights in this direction. Some of such wonderful practices are furnished below:

- To enforce and inculcate healthy eating habits; Fruit Day, Sandwich Day etc., are organized in the Kindergarten section.
- To bring out innate artistic talents of the students, we organize Art & Craft Exhibition for the students of S.C.C, Kindergarten and Grades I to XII. It provides an opportunity to showcase every child's natural creative flair.
- Science Exhibition is organized every year for the students of Grades VI to XII. It aids in igniting the young minds to develop scientific skills. Students exhibit logical thinking and reasoning through creative and innovative ideas.
- To nurture the literary talents of the students, we publish a "News Letter - Chronicle", which serves as a gateway to the literary genius of our students. It provides a platform for the young writers to vent out their creative ideas in the form of Articles, Stories, Poems, Essays, Anecdotes, Riddles etc.
- To appreciate and recognize the students' academic performance, good conduct and positive attitude, students are awarded with "Student of The Month" title. Also, "Star of The Week" title is awarded in recognition of the regularity, punctuality and discipline.

Thus, by combining various creative and literary activities we try to bring in new innovations to foster all-round development of the students.
