

## **Brief Note of the Committee on Activities and Achievements in the field of Arts Education**

Arts education is one of the essential areas of education, which develops creativity, nurtures aesthetic sensitivity and cultural awareness. Students gain delight, enjoyment and satisfaction through participating in Arts activities.

Our Arts Education Committee is functional at two different levels, one is to train and develop Art and Crafts and other to train students in music and drama.

Art and Craft exhibition is organized every year in the school to enable the students to explore and enhance their creative talents in the form of Paintings, Drawings, Artistic creations etc.

Our Music and Drama Committee trains and mentors our students to participate in the various cultural events in and outside the school. Every year our students participate in the Republic Day Celebration organized by the Embassy of India, Riyadh. This year our students participated in the 150<sup>th</sup> Birth Anniversary Celebration of Gandhiji at the Embassy of India by presenting a semi-classical dance performance and a documentary on Gandhiji and received applause and appreciation for their meticulous endeavours.

Apart from these, our students also take active part in various cultural activities organized by different local organisations, under the efficient guidance of Cultural Committee.
